

PORK HEADLINES

Leading Our Industry's Future Successes

Jan/Feb 2022

BOARD SPOTLIGHT

Jeff Morris is one of the newest board members of the WPA and an avid showpig producers. Jeff's family includes Kristin Hicks, Jessica (Mitch) McCutchin, Dessa (Matt) Laursen, and the late Noah Morris.

Including 7 grandchildren. He currently lives in Lone Rock WI and runs Morris & Sprecher Showpigs, with Melissa, Talena, and Annabeth Sprecher. Jeff says they currently have 12 purebred Poland and Tamworth sows producing breeding stock and youth projects as well as market swine privately to established customers. And assists Talena and Annabeth when showing pigs all across the US.

During my time on the board I have enjoyed interacting with the fellow board members. We have diverse farms and occupations. Getting to know them and their beliefs have been rewarding. I also enjoy working with WPA staff they do an awesome job! I believe it is important to represent and appreciate the interest of ALL Wisconsin pork producers whether 1 pig or 10,000 sows and everywhere in between.

There are several issues facing Wisconsin's pork industry today, however a couple that I believe are critical are environmental and public perception. We need to have the ability for pork producers to expand or rebuild facilities without opposition and excessive regulation. Additionally, the PRRS and PED regulations need to be reviewed. What have we learned from testing? Do we need to continue testing? Understanding the hardship and costs it has placed on pork producers. Thank you for a great year.

2022 Annual Meeting Corn and Soy Expo

The Wisconsin Pork Association's annual meeting will take place at the Kalahari resort on Feb. 3rd and 4th. This event will coincide with the Corn and Soy Expo.

Schedule of Events:

February 3rd

8:00 - 12:00Registration

12:00-2:30.....Annual Meeting

2:30 - 4:00.....Speakers

National Pork Issues

Carbon Credits

4:30.....Porkapoolaza

February 4th

7:30.....Leadership Breakfast

The Wisconsin Corn and Soy Expo is Wisconsin's premier grower event where the Wisconsin Soybean Programs, Wisconsin Corn Programs, and the Wisconsin Pork Association bring together over 1,200 corn, soybean growers and pork producers. The trade show hosts over 120 companies in 155 booths. A two-day educational program is filled with informative sessions led by University and industry specialists. If you plan on attending the trade show and other events register at <https://cornsoyexpo.org/>

If you will be only attending the annual meeting register with the Wisconsin Pork Association at wppa@wppa.org.

Porkapoolaza will be back again this year. Please join us after the meetings to enjoy music from Bella Cain.

Established in 2010, Bella Cain has become one of the largest and most "in-demand" Top 40 Country Groups in the region. They are

performing over 120 shows a year and playing in multiple states.

They can be seen rock'n the stages of Country

Thunder, Country USA, SummerFest, FM106

and Navy Pier, WI State

Fair, Allstate Arena, Bradley Center. They have had the honor and privilege of sharing the stage with such National Headliners as: Brad Paisley, Miranda Lambert, Jason Aldean, and many more.

2022 Membership Open

What do I get by being a member?

- Gain legislative representation at state and federal levels
- Help determine WPA policy positions
- Local, state, and national leadership opportunities
- Educational programs and opportunities
- Pork industry networking

2022 Advocacy Issues

State

- Comments on 2021-23 biennial budget
- Ag Exports funding to grow Wisconsin's export markets
- No movement on proposed NR 151 nitrate provisions
- Continue exemption for farm above ground fuel storage
- Secured additional meat processor grant funding to add harvest/processing capacity
- PRRS/PEDv swine health rule review
- Continued support for UW Extension Swine position
- Opposition to moratoriums prohibiting the expansion of or new build for livestock operations
- Support of producer-led watershed grants
- COVID vaccine priority Phase 1B for farms and the industry's workforce
- Clear meat labeling supported
- Renewable energy support

National:

- Foreign Animal Disease (FAD) prevention initiatives
- Depopulation and disposal measures in case of a FAD
- Support funding additional U.S. Customs and Border Protection Ag Inspectors
- Request to full fund USDA's National Health Network
- Reform VISA programs to address labor shortages
- Livestock mandatory price reporting
- Monitoring Prop 12 and the nationwide effects
- Enhanced exports and reduction of tariffs

Please join as a member and participate in the Strategic Investment Program to help us fund a coordinated effort to address pork industry issues.

Go to www.wppa.org for the membership form. You can also register by calling 608-723-7551 or emailing wppa@wppa.org.

NPPC Hires New CEO

The National Pork Producers Council (NPPC) announced Bryan Humphreys has been chosen as the organization's new chief executive officer, effective Dec. 21, 2021, following the retirement of long-time leader Neil Dierks. Humphreys brings with him years of experience in the pork industry, including as a former NPPC employee, state association executive and National Pork Board senior vice president, as well as outside the industry as a campaign operative, lobbyist and business owner.

Before joining NPPC, Humphreys worked at the National Pork Board (NPB) as a senior vice president. In this role, Humphreys oversaw a multi-million-dollar budget, implemented a nationwide producer outreach plan during the pandemic and strengthened relationships on behalf of the organization. In doing so, Humphreys helped guide the organization to exceed expectations set by the industry.

Prior to his role at NPB, Humphreys served as the executive vice president of the Ohio Pork Council (OPC). At OPC, Humphreys cultivated award-winning producer image campaigns and fostered positive relationships with stakeholders and community members.

"For years, Bryan has been seen as a leader in the industry," NPPC President Jen Sorenson said. "His strategic thinking and unique experiences embody the type of leadership we, as an industry, need to guide us through challenging times ahead. On behalf of the board of directors, we are thrilled to welcome Bryan to the team."

Humphreys also served as the director of grassroots operations for NPPC and has several years of experience on political campaigns across the Midwest. Through these roles, Humphreys recruited advocates and volunteers to promote organization and campaign initiatives.

Humphreys is originally from Columbus Junction, Iowa, where he grew up on his family farm. Humphreys earned a bachelor's from Iowa State University and a master's degree from George Washington University. Today, Humphreys resides outside of Des Moines, Iowa, with his wife and son.

Virtual field trip

The Wisconsin Pork Association hosted a virtual field trip on December 15. Over 400 students across 8 school districts participated in the event. Thank you to Wolf L&G Farms for hosting these classes. The tour looked at a large swine farm in southern Wisconsin and allowed the students to directly interact with the farmer and the pigs. The tour took about 45 minutes, and went through the farrowing operation (where the piglets are born).

If you know a classroom who may be interested in educational resources in the future please reach out at mwehrle@wppa.org

Neil Dierks Scholarship

This scholarship was developed in honor of Neil's 2021 retirement following a long and impactful career, including as the CEO of the National Pork Producers Council for more than 30 years. We are proud to further his legacy of leadership and passion by equipping the next generation for a prosperous path in the industry.

If your life has been touched by Neil and his work — whether it was on Capitol Hill, in a boardroom in Des Moines or in your barn — we ask you to consider making a tax-deductible donation that will help perpetuate the work he began by empowering future pork industry leaders.

The \$5,000 scholarship will be administered to one individual annually by the National Pork Industry Foundation, with applications due each September and the recipient announced during the Pork Forum in March.

To donate to the Neil Dierks Scholarship go to <https://nppc.org/programs/scholarship/>

Alan Bryce Miller Dies at 63

Alan Bryce Miller, DVM, 63, died on November 27, 2021 at the UW Hospital Trauma and Life Support Center surrounded by family.

Alan was born in Manistique, MI on April 9, 1958, the son of Richard and Lois (Troyer) Miller. He grew up on a dairy farm in Michigan's Upper Peninsula and was a 1976 graduate of Engadine High School in Engadine, MI.

Alan attended Eastern Mennonite College and obtained his Bachelor's and his Doctorate of Veterinary Medicine at Michigan State University with the class of 1983. After graduating from veterinary school, Alan moved to Waterloo, WI in December of 1983, joining partnership in the Waterloo Veterinary Clinic.

He met the love of his life during a Marshall Community Theater's production of Music Man, where they remained very involved for many years. On November 7, 1992, he married Michele "Kelly" Sippel at Wildwood Mennonite Church in Engadine, Michigan.

He enjoyed time spent with family, cheering on his children in their activities, gardening, many years of coaching WYSO youth football, and napping in his chair with his kitty.

He is survived by his spouse, Michele "Kelly", three children; Maddie (Alec) Wilcox, Des Moines, IA, David (Cassidy) Miller, St. Paul, MN, Peter (Hannah) Miller, Ames, IA, six siblings; Roderick (Melanie) Miller, Uniontown, OH, Wendell (Debbie) Miller, Engadine, MI, Christine (Steve) Yoder, Bellefontaine, OH, Jonathan (Diane) Miller, Engadine, MI, Rachel (Steve) Nolt, Lancaster, PA, Leighton (Haiam) Miller, Elkhart, IN, nieces, nephews, and many other relatives and friends.

He was preceded in death by his parents, and his brother, David.

His service was held December 11, 2021 at St. Paul's Lutheran Church in Waterloo.

Wisconsin Legislative Update

By Jordan Lamb, Dewitt LLP

Legislature to Clarify Regulation of Aboveground Fuel Storage Tanks – Farm Tank Exemptions Preserved. In July 2019, the Department of Agriculture, Trade and Consumer Protection notified stakeholders that it would cease to regulate flammable and combustible liquid aboveground storage tanks that are less than 5,000 gallons on October 1, 2019.

This change resulted from a discovered conflict between language in an administrative rule and language in a statute. DATCP recommended a statutory change to align the rule with the statute and restore regulatory authority for aboveground fuel storage tanks over 110 gallons. However, the statute and rule also contained some very specific and important exemptions for farm tanks.

Accordingly, DATCP has worked with legislative officials and affected industry stakeholders this session to address this conflict in our law. Legislation has been introduced (Assembly Bill 384 / Senate Bill 381) to grant DATCP regulatory authority over all aboveground storage tanks over 110 gallons, while preserving the exemption for farm tanks under 5,000 gallons. AB 384 / SB 381, as amended, will restore DATCP's authority while also preserving the exemption for all aboveground farm fuel storage tanks under 5,000 gallons.

However, all farm tanks over 110 gallons will be required to register with DATCP. This is not a new requirement. This was required prior to 2019, as well. This notification requirement is meant to alert local fire departments that there is a fuel storage tank on the premises in the event of a fire. There is no fee or inspection requirement associated with this registration. (Note: Many local ordinances already require registration of aboveground fuel tanks with local fire districts.)

Agricultural Water Quality Legislation Introduced. Senator Rob Cowles (R-Green Bay) and Representative Joel Kitchens (R-Sturgeon Bay) have authored Senate Bill 667 / Assembly Bill 727 and Senate Bill 668 / Assembly Bill 728, which contain positive agricultural water quality initiatives for Wisconsin farmers. Wisconsin farmers want to be leaders in the development of improved water quality practices on farms. The programmatic changes and the new programs that are created in these bills will support farmer-led conservation efforts that we have seen develop across Wisconsin. WPA supports both SB 677 and 678 and urges the Legislature to pass these bills.

Senate Bill 677. This bill creates a commercial nitrogen optimization pilot program to incentivize farmers to engage in new practices to reduce nitrogen on farms and

share what they learn as a part of those projects with other farmers across Wisconsin. This legislation creates a two-year, \$1 million per year pilot program to award grants of up to \$50,000 to farmers for projects on their farm fields to optimize the use of commercial nitrogen. Similar to successful efforts in neighboring states, this legislation also creates a crop insurance premium rebate program where farmers not receiving funding from other state or federal programs may receive \$5 per acre to help offset the costs to plant cover crops. This program is funded at \$400,000 per year, beginning in the next fiscal year. The bill also funds a hydrogeologist position at UW-Extension. This position will continue to develop reliable soil depth to bedrock maps in Wisconsin so that cropping practices can be adjusted to meet the geology of particular regions and identify more areas that might be more susceptible to runoff.

Senate Bill 678. This legislation makes several important programmatic changes to the DNR's well compensation program that are necessary for increased eligibility for well compensation grants to address rural drinking water concerns. This program was funded in the 2021 biennial budget bill so that it can be utilized in by rural well owners who have elevated contaminant levels in their drinking water wells. The bill also contains several programmatic changes to the producer-led watershed grant program and the county conservation grant program are needed to further enhance the utilization of those programs.

Revision to NR 151 - Groundwater Nitrate Targeted Performance Standard - Will Not Move Forward. On November 17, 2021, the Department of Natural Resources sent an email to the members of the NR 151 Technical Advisory Committee informing them that, "The statutory process and associated firm timelines established by the Legislature for rule-making do not allow adequate time for the department to complete this proposed rule." The proposed revision to NR 151 was authorized to create a targeted performance standard for the application of nitrates/nitrogen to agricultural land in Wisconsin. The DNR would have to put forth a new Scope Statement and initiate a new rulemaking process if they choose to continue to develop this rule.

Join Us For Ag Day At The Capitol

This year's event will be held Wednesday, Jan. 26, 2022. Issue briefings and legislator visits will be held at the Monona Terrace Convention Center in Madison.

Issue briefings and legislator visits will be held at the Monona Terrace Convention Center in Madison. 11:00 a.m. Registration

Due to Dane County ordinances for COVID-19 mitigation, masks and other provisions may be required for this event and details are subject to change.

Contact us at wppa@wppa.org if you would like to attend.

Auction Items Needed

During the Porkapoolaza the WPA will be auctioning off baskets and pies to support the scholarship program. Here at Wisconsin Pork, we understand today's youth are tomorrow's leaders of the industry. We also understand the importance of having well educated individuals as leaders to help ensure continued growth and success for the state's pork industry. That's why we offer several scholarships to help those with a sincere interest in the industry and the future of Wisconsin agriculture.

Each year, we offer the following scholarships for high school and college students:

- WPA Scholarship
- Fredrich Memorial Scholarship
- Whitmore Memorial Scholarship
- Gunderson Memorial Scholarship

If interested in donating auction items please contact the WPA at WPPA@WPPA.org or call 608-723-7551.

Pork Act Delegate Election Notice

Public Notice by Wisconsin Pork Producers Association and the National Pork Board.

The election of pork producer delegate candidates for the 2023 National Pork Producers (Pork Act) Delegate Body will take place on February 3rd at 1:00pm in conjunction with the Wisconsin Pork Association annual meeting at the Kalahari Resort, 1305 Kalahari Dr, Wisconsin Dells, WI 53965. All Wisconsin pork producers are invited to attend.

Any producer, age 18 or older, who is a resident of the state and has paid all assessments due may be considered as a delegate candidate and/or participate in the election. All eligible producers are encouraged to bring with them a sales receipt proving that hogs were sold in their name and the checkoff deducted. For more information, contact the Wisconsin Pork Association at WPPA@WPPA.org

WPA Terms Of Directors 2022

DISTRICT	EXPIRES	TERM	ELIGIBILITY
NORTH			
Ryan Cain, Osseo	2023	3 years	1st term
SOUTHEAST			
Ray Ibeling, Clinton	2022	3 years	2nd term-not eligible
Brian Klubertanz, Waterloo	2024	3 years	2nd term
SOUTHWEST			
Alicia Prill-Adams, Platteville	2023	3 years	1st term
Christina Meylor, Darlington	2022	3 years	1st term- eligible
AT-LARGE			
Bob Spurley, Linden	2024	3 years	2nd term
Nathan Brickl, Spring Green	2022	3 years	2nd term-not eligible
Jeff Morris, Janesville	2024	3 years	1st term
Curt Watson, Edgerton	2024	3 years	1st term
A.V. Roth, Wauzeka	NPPC Board Representative		

Terms expire at the annual meeting within the respective term year. Individuals with unexpired terms, a term with less than 3 years, are eligible to run for two full terms at the completion of their unexpired term. One full term is the completion of three (3) years on the board. Each district must have at least one producer director. There may be up to 6 at-large directors from any district. There must be at least one allied industry director, but no more than three.

WPA Reaffirm Resolutions 2022

22-1 Applied Agricultural Research – Motion: Whereas WPA supports ongoing scientific research in the areas of applied agricultural science, WPA:

Rationale: Pressure on Wisconsin farmers to change farming practices in response to a wide variety of environmental concerns is increasing. However, adaptation of farm practices must be based on sound science that accounts for and balances both economic and environmental concerns. As such, we need to continue to support and strengthen our applied agricultural research community in Wisconsin and in our university system.

22-2 Groundwater Quality – Motion: As the focus in Wisconsin increases on the sources, effects and remediation efforts to support quality groundwater, WPA:

Rationale: Quality groundwater in Wisconsin is a statewide public health concern that potentially affects all WPA members, including its' continued growth and protection of the environment.

22-3 State Biennial Budget Issues – Motion: WPA supports continued state funding for the Wisconsin Department of Agriculture, Trade and Consumer Protection (DATCP) producer-led watershed grant program;

Rationale: These programs are important for the infrastructure of Wisconsin agriculture.

22-4 Livestock Siting – ATCP 51 – Motion: Whereas the existing livestock facility siting standard establishes regulatory certainty for new and expanding hog farms in Wisconsin through the use of clear statewide standards; WPA

Rationale: Following a four-year review of the Livestock Facility Siting Rule, DATCP has proposed revisions to the standard, which need further review and additional input from livestock farms, environmental groups, and local units of government in order to ensure that the livestock facility siting rule continues to provide an understandable and predictable process for siting new and expanding livestock farms across Wisconsin.

22-5 Animal Health – Motion: Whereas it is in the best interest of Wisconsin's swine industry to continue to explore options to mitigate impacts to the industry, WPA:

Rationale: Wisconsin is in the right position to take further steps to control and reduce the prevalence of diseases. Transportation funding for local roads

22-6 Local livestock moratoria and ordinances – Motion: Whereas WPA encourages planned agricultural growth at the local level, WPA:

Rationale: Fewer Wisconsin residents have direct links to agriculture and, as a result, have less knowledge about on-farm practices. Supporting a diverse agricultural economy that in-

cludes locally- grown commodities, organic farming, conventional agriculture and concentrated animal feeding operations, benefits all involved in agriculture. The State of Wisconsin provides local units of government with tools to regulate the siting of livestock operations through zoning and Wis. Admin. Code s. ATCP 51, the livestock facility siting standard.

22-7 Renewable Energy – Motion: As governments and communities begin to focus more on expanding sources of renewable energy, WPA is committed to producing pork in a sustainable way that:

Rationale: Wisconsin farmers recognize the need to support a strong foundation of voluntary energy stewardship investments and practices that are balanced against the needs of crop and livestock systems.

Animal Sciences Education Series Announced for 2022

This series is offered in connection with the University of Wisconsin Madison Animal & Dairy Sciences Department, College of Agricultural and Life Sciences, and Division of Extension.

The Wisconsin Youth Livestock Program (WYLP) is excited to offer these LIVE Virtual Zoom educational programs for the spring of 2022. These current topics are for youth and adults alike and occur on the second Thursday of the month from January through May. Each session begins at 7 p.m. CST with a presentation followed by question-and-answer time. Register for any or all the events to get the connection information by email.

For registration and details about each presentation, go to: <https://go.wisc.edu/tnq61h>. On this webpage, you can also find an educational verification form. Complete the form and turn it into your county fair and or livestock committee to verify your participation. These activities can serve as "county educational requirements".

Annual Meeting Notice

Notice is hereby given to all members of the Wisconsin Pork Association that the annual business meeting will be held in conjunction with the Corn/Soy/Pork Expo at the Kalahari Resort, Wisconsin Dells on Thursday, February 3 beginning at 12 noon. All pork producers are invited to attend the meeting. All 2022 WPA paid members are eligible to vote on association business during the annual meeting. If you have any questions, please contact the state office at 608-723-7551 or email wppa@wppa.org or visit the website for additional details and registration at www.wppa.org.

Madison College- Artisanal Modern Meat Butchery Offered

The Artisanal Modern Meat Butchery Program at Madison College is a One Year, Technical Diploma Course You learn about how animals make it from Pasture to Plate As a Student of the Program, you will apply the pasture-to-plate philosophy in Madison College's state-of-the-art culinary and meat production facility as well as manage all aspects of our retail butcher shop. In the butcher shop, you will identify, inspect, and process carcasses, as well as prepare and package meat for sale, and interact with customers. This is a mixed attendance program with some classes online and in person Lab Classes

As Wisconsin continues dealing with the meat processing shortage more career opportunities arise. If interested in meat processing consider applying to UW Madison's short course.

More information is available at <https://madisoncollege.edu/academics/programs/meat-production>

Prospective students may also reach out to Chef Paul Short, C.E.C. (Program Administrator) pshort@madisoncollege.edu or Joe Parajecki, MMC, Instructor jparajecki@madisoncollege.edu

Dave Graff Dies at 68

David Richard Graff, age 68, of Juneau, died on Monday, Dec. 27, 2021, at Aurora Medical Center in Summit.

David was born on Sept. 7, 1953, in Beaver Dam, Wis., to Richard and Ruth (Dittberner) Graff. From the time he was born, his life revolved around farming in Wisconsin. He grew up on a farm in the Oak Grove Township and early in his youth, he knew that he would continue the lifestyle. On Dec. 1, 1973, he was united in marriage with Kathleen Jahnz at St. Paul's Lutheran Church in Neosho. They raised their family on a farm outside of Juneau and, together, introduced Graff Show Pigs to countless children in the greater Dodge County area. Dave was committed to educating kids on the importance of agriculture. He was a 4-H leader in Dodge County for over 48 years and was involved in countless committees throughout the area. Dave was on the Dodge County Meat Animal Sale Committee, was a livestock judging coach, as well as the Pork Producer president, promoting pork at area fairs and other events. After retiring from Universal Co-Op in Lebanon in 2015, he took the role of bus driver for Lamers Bus Service. Dave also perfected his canning and baking skills and made the best apple pies and "Ruthies" butter horns. He touched the lives of many people, and he will be missed deeply.

To leave on-line condolences, or for directions and other information, please visit our website at www.KoepsellFH.com.

USDA RMA Insurance Available

The USDA Risk Management Agency knows 2021 has been a difficult year for livestock producers. Though insurance does not solve every problem, it can be an important part of the risk management strategy employed by your operation.

You can find information about Livestock Insurance Plans. These plans include Dairy Revenue Protection, Livestock Gross Margin, and Livestock Risk Protection <https://www.rma.usda.gov/en/Policy-and-Procedure/Insurance-Plans/Livestock-Insurance-Plans>

If you do not have a current relationship with an agent, use the Agent Locator Tool to find an agent in your area. Approved Insurance Providers and their agents can help answer your questions as you try to find the best insurance solutions to meet the needs of your operation.

Some recent changes to the Livestock Risk Protection Program are:

Increased head limits to:

Swine – 40,000 head per endorsement/150,000 head annually

Modified the livestock ownership requirement to 60 days

Added endorsement length options up to 52 weeks for swine

Added new feeder cattle and swine types to allow for live stock to be insured before birth

Some recent changes to the Livestock Gross Margin Program are:

Modified the Expected Price Measurement Period definition and the Sale Period definition to allow for weekly sales; and

Clarified when the producer may seek arbitration

If you have any additional questions or comments, call the USDA RMA office at 651-290-3304 or email at rsomn@usda.gov.

Happy New Year!

As we close out 2021, WPA Board and Staff would like to thank you for your continued support. We look forward to serving you in 2022. We would like to again invite you to attend the WPA annual meeting Feb. 3 At Kalahari in WI Dells.
